

Movable Type 4 - Uploading Files

Uploading a file into your entry or page

- To upload a file and link it from your entry or page, click on the Insert File button on the editor toolbar.

- Uploading a file into your entry or page follows the same general process as outlined above for uploading an image, but will not present the image options in the File Options screen.
- When you finish uploading the file, the system will insert a link to the file you have uploaded.
