Dear Home-Based Parents:

RE: Saskatchewan Distance Learning (SDL) – Correspondence Courses

As you may know SDL/Correspondence School is closing. A number of school divisions have taken over the delivery of the courses.

Funding for the courses has also changed with the ministry. In response to this, our division wishes to continue to provide home-based students with access to distance learning options. Therefore, Greater Saskatoon Catholic Schools Home-School students can access distance learning courses as follows:

- 1) First access **must** be through Greater Saskatoon Catholic Schools Cyber School courses (at no cost to the parent);
- 2) If the needed course is not offered through Greater Saskatoon Catholic Schools Cyber School then the home-based student can access it through an outside school division (at no cost to the parent);
- 3) However, if the student wishes to take a course from another school division that is offered through Greater Saskatoon Catholic Schools Cyber School, the parent will be invoiced.

To register:

- Students go to www.gscs.sk.ca/cyber and click on Saskatchewan Distance Education courses (under links).
- Registration links are provided for each course. Registrations are processed through Cyber School and approved by me.

Please note:

- Print materials are no longer available.
- Courses are offered through a number of divisions; you will need to work directly with the providing school division/teacher for any special accommodations needed.
- Books/materials will be the responsibility of the student.

If you have further questions feel free to contact me.

Lana Bauer – Coordinator
Career Development Education
