

OUR BODY

THE UNIVERSE WITHIN

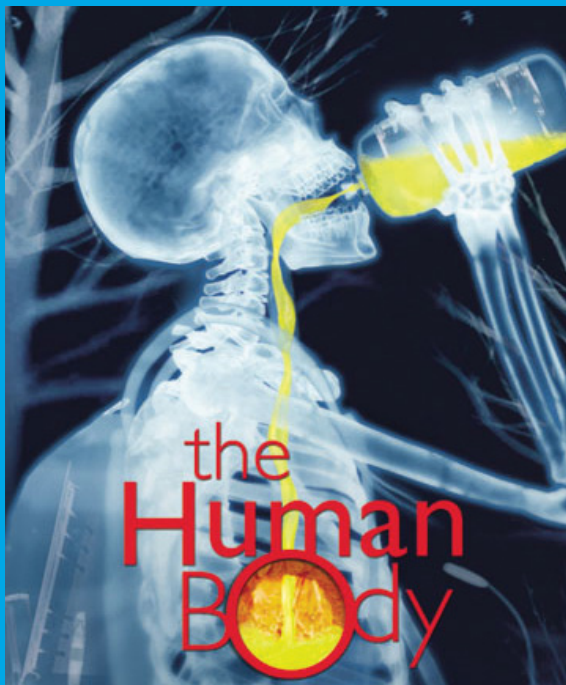

REAL HUMAN BODIES

A fascinating, artful and educational exhibit consisting of actual human bodies and organs. Appropriate for all ages, this exhibit literally goes "under the skin", revealing the mysteries of the human anatomy.

Educators should consider featuring this fascinating exhibit as a supplement to the subjects of health, biology, physical education, sports, and figure studies in art.

Add this great IMAX film to compliment your visit!
(for only \$2.75 extra)
