* This data is based on Saskatchewan Health's Insurance Card postal database. It is not a 'census' of people but rather a count of people through registered addresses. Problems lie in that the database is only cleaned every three years, so that duplicates remain in the system for three years. This results in a low, medium, and high population reporting cycle, where every three years you see figures drop (as is the case with the 2006 data, for example). For example, "correction" years are 2003, 2006, 2009. Data is accurate as of June 30th each year.
